

Secure Container

When security on site is an issue, our range of secure containers provide a reassuring solution. Containers are always fitted with a canopied generator which is unique to John F Hunt Power. We DO NOT fit open sets which create more noise and pose a threat to the safety of operators and technicians alike. Available to house super silenced generators from 20 kVA up to 100 kVA, our units feature a bundled 1800 – 2000 litre internal fuel tank. Please note: These units are unbranded, there being no indication of what lies within.

- Anti-vandal specification
- 1800 – 2000 litre bulk fuel tank within container
- Fully bundled to contain spillages, so no drip tray is required
- Dimensions: L3660 x W2440 x H2660
